From Concept to Completion.

Quick Loft™

Quick Loft™ is designed for many makes of barns, and holds up to 100 lbs. per square foot.

The quick way to extra storage space.

FCP's Quick Loft™ uses your vertical space to create cost-effective additional storage area.

Designed to fit on top of most raised center aisle stall fronts, Quick Loft™ is made of strong, galvanized steel and can accommodate heavy loads.

Extra storage space is as easy as FCP's Quick Loft™.

- Designed for most steel solid-wall barns
- Ideal for an FCP Raised Center Aisle or Gable Barn.
- Holds up to 100 evenly-distributed lbs. per square foot
- Kits available for 12-ft or 16-ft aisles
- Kits available to raise height by 1' or 2'
- Larger loft configurations allow for bulk buying of hay & shavings

Includes installation kit with instructions
